FODOF
DOORS & FRAMES

Inspiring Entrance

Choosing FODOF isn't about just selecting a door. It's about designing an inspiring entrance. Creating a look everyone will love and having confidence that it will perform for years to come.

Be it traditional or contemporary, FODOF offers virtually unlimited choices to complement the architecture and your sense of style.

Being conscious in environmental protection, we encourage every individual to participate in curbing deforestation by using our doors.

We manufacture premium fiberglass Doors & Frames – the weather proof solution for architectural doors to suit any required environment.

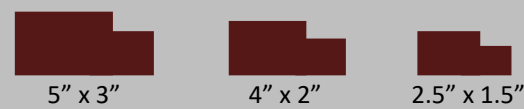

FODOF product ranges are versatile enough for various applications ranging from homes, educational institutes, hospitals, offices, retail malls, public buildings etc.

STANDARD COLOURS

FODOF doors available in three variants

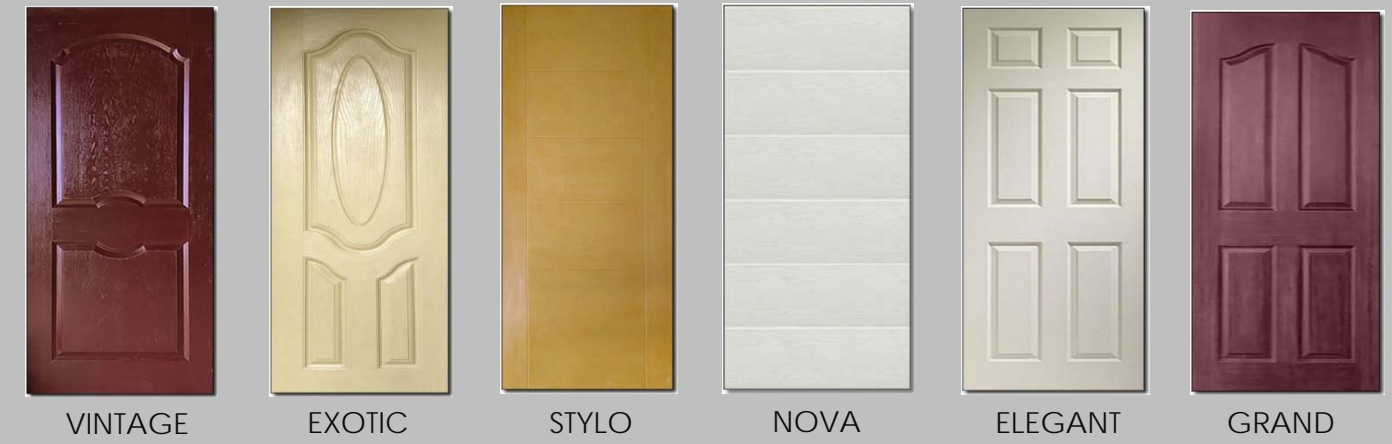

- 1. **LIGHT** : Single layer lamination with Honey comb core.
- 2. **MEDIUM** : Multi layer lamination with Honey comb core.
- 3. **SOLID** : Multi layer lamination with Solid core.

WPC (Wood polymer composite) / **FRP** (Fibre Reinforced Polyester) Frames are made of a specially processed fibre composite material. These are versatile for regular use, hygienic purposes and for long lasting performance.

The frames can be easily installed and offer unique properties like corrosion resistance, water resistance, anti-ageing and anti termite.
